

Curriculum Vitae

General

Name: Song Xi CHEN

Current Employment: Xihua Chair Professor, Department of Statistics
and Data Science ,Tsinghua University; Dean of Institute for
Interdisciplinary Data Science, Tsinghua University

Mail Address: Department of Statistics and Data Science, Tsinghua University
Beijing 100084, China

Telephone: 86-10-62784687

Email: sxchen@tsinghua.edu.cn

Homepage: <https://www.songxichen.com>

Academic History

Ph.D. in Statistics, 1993, Australian National University.

M.Sc. in Statistics and Operations Research, 1990, Victoria University of Wellington.

M.Sc. in Mathematical Statistics, 1988, Beijing Normal University.

B.Sc. in Mathematics, 1983, Beijing Normal University.

Employment

July 2024 – : Xihua Chair Professor
Department of Statistics and Data Science
Tsinghua University
Dean of Institute for Interdisciplinary Data Science,
Tsinghua University

July 2024 – Sept.2025: Founding Chair
Department of Statistics and Data Science
Tsinghua University

June 2008 – June 2024: University Chair Professor
Founding Director, Center for Statistical Science (2010-2019)
Chair Professor, Guanghua School of Management (since 2008)

	Chair Professor, School of Mathematical Sciences (since 2021) Peking University
July 2006 – Feb 2017:	Full Professor of Statistics Department of Statistics, Iowa State University
Nov 2003 – July 2006:	Associate Professor Department of Statistics, Iowa State University
July 2000 – Dec. 2003:	Associate Professor, National University of Singapore
Jan. 1995 – June 2000:	Senior Lecturer/Lecturer, La Trobe University.
Nov. 1992 – Jan. 1995:	Statistician, CSIRO Marine Science and Biometrics Unit.
July 1983 – Aug. 1985:	Lecturer, Beijing Institute of Economics.

Editorial Service:

Associate Editor: *Journal of the Royal Statistical Society*, Series B: Statistical Methodology 2026.4-2030.4

Chief Editor: *Statistical Learning and Data Science*, 2025

Associate Editor: *Science China in Mathematics*, 2023-now

Associate Editor: *Environmetrics*, 2018-now

Associate Editor: *Journal of the American Statistical Association* 2018-2021

Associate Editor: *The Annals of Statistics*, 2010-2019.

Associate Editor: *Journal of Business and Economics Statistics*, 2012-2018

Joint Editor: *Statistics and Its Interface*, 2010-2014.

Joint Editor: *Statistica Sinica* Special Issue on Big Data in Environmental Studies, 2018

Associate Editor: *Statistica Sinica* Special Issue in Memory of Professor Peter Hall, 2016-2017.

Awards and Service

Council Member, International Statistical Institute, 2027-2031

Member, Willem van Zwet Medal Committee, Bernoulli Society, from January 2026

Sectional Speaker, International Congress of Mathematicians, 2026

Chairman, IMS-China Committee, IMS, 2025-2027

Honorary Fellow of Beijing Normal University-Hong Kong Baptist University, 2025

President, Society for Probability and Statistics of China, 2022-2026

Member of ISM International advisory board, The Institute of Statistical Mathematics, Japan, 2022-2025

Vice President, Statistical Association of China, 2023-2027

Member of Chinese Academy of Science, since 2021

Scientific Secretary, Bernoulli Society, 2019-2023

Council Member, Institute of Mathematical Statistics, 2016-2019 Bernoulli Society

Fellow of American Association for the Advancement of Science, 2018

Elected Council Member of IMS 2016-2019

First Class Award for Research in Natural Science, Ministry of Education, China, 2017

Elected Member of International Statistical Institute, 2011

Fellow of the Institute of Mathematical Statistics, 2009

Fellow of the American Statistical Association, 2009

Elected Board Member of International Chinese Statistical Association 2008-2009, 2012-2013

Mid-Career Research Excellence Award, Iowa State University 2008

Australian National University Ph.D. Award, 1990-1992

Telecom New Zealand Scholarship, 1989

Citation Profile (Web of Science):

H-Index 37, I-10 Index 59, Citations (without self-citations) 5516

3 Web of Science Highly Cited papers; Stanford World Top 2% Scientists since 2020

Current Research Support:

Integrated Research on Multi spheric Interactive Data Products in West Pacific, **National Natural Science Foundation of China**, Integrated Grant, PI, 2024-2026, RBM 15 million.

Mathematical Problems and Algorithms in Atmospheric System Modeling by Integrating Massive Observations, **National Natural Science Foundation of China** Key Grant, PI, 2023-2027, RBM 14.6 million.

Past Research Support:

Survey Study on Statistics Discipline, **National Natural Science Foundation of China**, Tian yuan Grant, PI, 2024, RBM 300,000.

Neural mechanism modeling and data assisted diagnosis and treatment algorithms for children with brain development disorders, **National Natural Science Foundation of China**, Tianyu an Grant, Co-PI, 2021-2024, RBM 2 million.

Statistical Inference for Varying Coefficient Epidemiological Models, **National Natural Science Foundation of China**, PI, 2021-2024, RBM 520,000.

Statistical Models for Air Quality Assessment, **China National Key Research Fund**, Chief Scientist, 2016-2020, RBM 16 million .

Big Data Driven Management Science Study Methods, **National Natural Science Foundation of China**, Key Grant, PI, 2016-2020, RMB 3.1 million.

High Dimensional Statistical Inference, **National Natural Science Foundation of China**, Zhong dian Grant, PI, RBM 2.2 million, 2012-2016.

Statistical Inference for Continuous Time Stochastic Processes, **National Natural Science Foundation of China**, Standard Grant, PI, 2014-2017, RBM 550,000.

A Nonparametric Approach to Population Size Estimation for Multiple Systems Capture-Recapture surveys, PI, **National Science Foundation**: SES-0518904, 09.2005-08. 2009, **\$280,416**, Co-PIs: S. Nusser and J. Opsomer.

A Supplement to NSF SES 0650938: A Nonparametric Approach to Population Size Estimation for Multiple System Capture-Recapture Surveys. PI, **US Census Bureau** via NSF \$19,080.00

China-US Exchange Grant in Mathematical Sciences, PI, **National Science Foundation**, \$40,000, August 2007-August 2009.

Statistical Inference for Continuous-Time Stochastic Processes, PI, **National Science Foundation**: DMS-0604563, \$165,018, 08. 2006 - 08. 2010, Co-PI: Liang Peng of GA Tech.

NSF DMS-NIH, Mathematical Biology: Development of High-Dimensional Data Analysis Methods for the Identification of Differentially Expressed Gene Sets. Co-PI, PI: Dan Nettleton; \$177,000 per year for three years, 2006-2009.

High Dimensional Multivariate Analysis, **NSF-DMS-** 1309210. \$70,000. 2013-2017.

Applications of Empirical Likelihood in Semi- and Non-parametric Statistical Inference, PI, **National University of Singapore Academic Research Grant**, Nov 2002-Nov 2003, \$46,306.

Computer-Intensive Statistical Methods for Testing Specifications of Financial Market Models, PI, **National University of Singapore Academic Research Grant**, 17-Dec. 2001-31- Dec. 2004, \$88,300.

Empirical Likelihood and Computation, **Australian Research Council Grant**, 1994-1996; \$10,000, PI, jointly with B. M. Brown.

Non-parametric Curve Estimation, **Australian Research Council International Exchange grant**, 1998-1999, PI, \$13,000.

Research Interests

Inference for High Dimensional Data; Environmental Modeling and Assessment; Empirical Likelihood; Statistical and Machine Learning; Inference for stochastic processes.

Graduate Students

Current Ph.D. students at PKU

Jingkun Qiu and Wu Su, started in 2021

Hanyue Chen, started in 2022

Mingyuan Bian, Qilong Lu, and Haoxiang Zhan, started in 2023

Xinru Ding, Tianyu Li and Zelin Xiao, started in 2024

Current Master students at PKU

Binghao Wang, started in 2022

Feng Yuning, Yao Jia and Lei Qian, started in 2023

Current Ph.D. students at Tsinghua

Dingyi Yu and Xinyou Chen, started in 2021 and 2024

Ru Liu and Ziyun Zhu, started in 2025

Haochen Li and Fenghui Zhao, started in 2026

Past Ph.D Students:

Jingkun Qiu, completed in 2026 at PKU, now a postdoc with KU Leuven

Wu Su, completed in 2026 at PKU, now a postdoc with LaoShan Laboratory

Pei Feng Tong, completed in 2025 at PKU, now a postdoc with The School of Aerospace Engineering at Tsinghua University.

Haoxuan Sun, completed in 2025 at PKU, now an Assistant Professor at Harbin Institute of Technology

Han Yan, completed in 2025 at PKU, now a postdoc with The London School of Economics and Political Science

Jia Gu, completed in 2024 at PKU, now an Assistant Professor at Center for Data Science, Zhejiang University

Yuru Zhu, completed in 2023 at PKU, now a postdoc with University of Pennsylvania

Xiangyu Zheng, completed in 2022 at PKU, now a Lecturer at Tsinghua University

Lei Chen, completed in 2020 at PKU, now an Assistant Professor Southernwest University of Economics and Finance

Shuang Zhang, completed in 2020 at PKU, now with People's Bank of China

Shuyi Zhang, completed in 2019 at PKU, now an Assistant Professor with East China Normal University

Xiaojun Mao, completed 2018 at ISU, now Associate Professor with Shanghai Jiaotong University

Liuhua Peng, completed 2017 at ISU, now Assistant Professor at University of Melbourne

Xuan Liang, completed 2017 at PKU, now Lecturer at Australian National University.

Ying Wang, completed 2017 at PKU, first a postdoc at University of Auckland; now Associate Professor with Renmin University.

Tao Zou, completed 2016 at PKU, now Associate Professor at Australian National University.

Jing He, completed 2016 at PKU, now Associate Professor at South-West University of Finance and Economics.

Shuo Li, completed 2016 at PKU, now Associate Professor at Tianjin University of Finance and Economics.

Bin Guo, completed 2015 at PKU, now Professor at at South-West University of Finance and Economics.

Yumou Qiu, High Dimensional Statistical Inference for Covariance Matrices; completed 2014 at ISU, now Associate Professor at Peking University.

Shan Yang, Statistical Inference for Stochastic Processes and Applications. Completed 2014 at ISU, Now Statistician at Merck.

Jinyuan Chang, Financial Econometrics and High Dimensional Statistical Inference, Completed 2013, now Professor at Southern University of Finance and Economics.

Zheng Xu, Essays on Statistical Finance; Completed 2013 at ISU, now Assistant Professor with Wright State University.

Jun Li, High Dimensional Data and Research on US Census Dual System Surveys. Completed in 2013; now Associate Professor, Kent State University.

Pingshou Zhong, Empirical likelihood method and High Dimensional Data; graduated 2011, now Professor with Department of Statistics, University of Illinois Chicago.

Ying-Li Qin, Statistical Inference for high dimensional data. Completed Winter 2009; now Associate Professor, Department of Statistics, University of Waterloo.

Chengyong Tang, Parameter estimation for diffusion processes and Nonparametric Approach for Census Undercount Estimation. Completed summer 2008, now Professor at Temple University. After getting tenure at National University of Singapore.

Dong Wang, Nonparametric Imputation of Missing values and empirical likelihood. Completed in 2006, now Associate Professor at University of Nebraska.

Past Master Students at PKU

Yao Jia, Lei Qian, Yuning Feng, 2026
 Axiao Peng, 2025
 Xia Yan, 2024
 Shanshan Luo, 2023
 Li Chen, 2021
 Xiaoyuan E, 2021
 Huijie Liu, 2019
 Zhenzhong Wang, 2017
 Wenqing Wang, 2012
 Fan Wang, 2012

Invited Presentations

Strategic Dialogue, 2026 APEC Customs-Business Dialogue “Integrating Customs-Business Insights, Connecting Asia-Pacific Futures”, Dalian International Conference Center, August 20th 2026.

Ultra High Resolution Statistical Data Assimilation for Atmospheric and Oceanic Reanalysis Datasets, The 220th Forum on Science and Technology Frontiers of the Academic Divisions of the Chinese Academy of Sciences: Data Science and Applications, Suzhou, August 15th 2026.

Geroge in Beijing as a Mentor and Friend, Session talk, The Joint Statistical Meetings (JSM), Boston, August 6th 2026.

Statistical Signal Detection in High Dimensions, Invited Lecture at International Congress of Mathematicians (ICM), Philadelphia, USA, July 28th 2026.

A Statistical Review on the Optimal Fingerprint Approach in Climate Change Studies, Keynote speech, Plenary Session at the 18th Society for Financial Econometrics (SoFiE) Annual Conference, Macau, June 18th 2026.

Ultra High Resolution Statistical Data Assimilation for Atmospheric and Oceanic Reanalysis Datasets, Distinguished Lecture, The 16th Lecture series by CAS Academicians, The Chinese University of Hong Kong (CUHK), March 25th 2026.

Versatile Differentially Private Statistical Learning for General Loss Functions, 2025 Mathematical and Statistical Foundations of Foundation Models” workshop, Changbaishan Mountain, July 23th 2025.

On the Optimal Fingerprinting Approach in Climate Change Studies, School of Atmospheric and Oceanic Sciences, Sun Yat-sen University, Zhuhai, June 9th 2025.

Statistical Foundations of Intelligent Medicine, Inaugural Meeting of the Intelligent Medicine and Smart Health Professional Committee of Hunan Provincial Society of Medical Education and Technology and the 2025 Academic Annual Conference, Changsha, April 25th 2025.

Automatic Annotation and Statistical Analysis of EEG Data, Annual Conference of Beijing Society of Biomedical Statistics and Data Management 2024 and the 9th Academic Exchange Seminar, Beijing Fuwai Hospital, January 19th 2025.

Ultra-high-dimensional Statistical Analysis and Optimal Fingerprinting Methods, Tsinghua University Xiong'an New Area "Young Scholars Forum." December 28th 2024.

Universal Differential Privacy Statistical Learning, Inauguration Ceremony of the School of Statistics and Data Science, Southeast University, December 12th 2024.

Dynamic Synthetic Control Method for Evaluating Treatment Effects in Auto-regressive Processes, 2024 International Conference on Statistics, Data Science, and Artificial Intelligence, Changchun University of Technology, November 29th 2024.

Ensemble Kalman Filter for High Resolution Data Assimilation, 2024 Academic Annual Conference of the Beijing Mathematical Society, Beijing Information Science and Technology University, November 24th 2024.

Ultra-high-dimensional Sparse and Weak Signal Detection, Frontier Interdisciplinary Workshop on Neutrinos and Marine Science, Ocean University of China (Qingdao), November 5th 2024.

Universal Differential Privacy Statistical Learning, The 6th Shaanxi Silk Road Young Scholars Forum on Information and Intelligent Development Conference (ICAC), Xidian University, October 26th 2024.

Ensemble Kalman Filter for High Resolution Data Assimilation, Xidian University, October 25th 2024.

Ensemble Kalman Filter for High Resolution Data Assimilation, The 2024 Academic Annual Conference of the Data Science and Operations Research Intelligence Branch (in preparation) of the Operations Research Society of China , Liaoning Hotel, September 14th 2024.

Statistical Inference for Decentralized Federated Learning , The 50th Anniversary Celebration of the Re-establishment of Xiangtan University and the 50th Anniversary of the Establishment of the Mathematics Discipline: Development Conference and Mathematics Frontier Forum, Xiangtan University, September 8th 2024.

Statistical Inference for Four-regime Segmented Regression Models, Keynote report, SEU Statistics and Big Data Forum, Southeast University, July 15th 2024.

High Dimensional Ensemble Kalman Filter, Keynote lecture, The 2024 IMS-China International Conference on Statistics and Probability, Ningxia University, July 6th 2024.

Data Assimilation: A Data Fusion Method Combining Mechanism and Observation, The 2nd China Young Statisticians Forum, Jiangsu Normal University, April 20th 2024.

Data Experiments and Statistical Analysis in Atmospheric Environment, Jiangsu International Joint Laboratory of System Modeling and Data Analysis, Jiangsu Center for Applied Mathematics, Nanjing University of Information Science and Technology, April 12th 2024.

Ensemble Kalman Filter under Fixed and High Dimension, Guangdong Provincial Key Laboratory of Interdisciplinary Research and Application for Data Science, UIC, January 11th 2024.

Leveraging Statistical Intelligence to Promote Customs Clearance Convenience, Invited Industry Theme Speech, 2023 High-quality Development Forum on Non-tariff Trade Measures (6th CIIE Supporting Forum), Shanghai, November 7th 2023.

Opening Speech & Invited Forum Talk: Integrated Development of Statistics and Data Science in China, Joint Conference on Statistics and Data Science in China (JCSDS 2023), Beijing Conference Center, July 11–13 2023.

Invited Theme Talk, 7th Symposium on High-Dimensional Data Statistics (Chinese Society for Applied Statistics), Hunan Normal University, May 2023.

Opening Invited Keynote Address (Presidential Talk), 12th National Conference on Probability and Statistics, Shandong University Qingdao Campus, April 2023.

High Spatiotemporal Resolution Economic Statistical Datasets, Numerical Models and Their Implications, Invited Plenary Report. 9th Annual Conference of Chinese Statistical Association, April 2023.

Distributed Statistical Inference under Heterogeneity, Distinguished Lecture Series of College of Science, Zhejiang University, Zhejiang University Hainanyuan Campus, April 25th 2023.

Distributed Statistical Inference under Heterogeneity, Invited Lectures, No.97 SUSTech Science Lecture Hall, Southern University of Science and Technology, February 6th 2023.

Distributed Statistical Inference for Massive Data, Keynote Speaker. The Lanzhou University International Forum on Statistics, Lanzhou, May 18th 2019.

, Multi-level Thresholding Test for High Dimensional Covariance Matrices, Keynote Address, 2018 Annual Meeting of Korea Statistical Society, Seoul.

Air Quality Assessment with Spatial and Temporal Adjustment to Meteorological Confounding, Penn State University, January 2018.

Spatial Temporal Adjustment for Air Quality Assessment, Keynote Speaker, 2nd Data Science Conference, Fudan University, Shanghai, China, December 2017.

Peter Hall's Contribution to the Empirical Likelihood, ICSA International Conference, Shanghai December 2016.

Detecting Rare and Faint Signals via Thresholding Maximum Likelihood Estimators, Conference in Memorial of Professor Peter Hall, University of Melbourne, December 2016.

Spatial and Temporal Adjustment for Air Quality Assessment Around Beijing, Colorado State University, November 2016.

Two-Sample Thresholding Tests for High Dimensional Means, in Memorial Conference for Professor Peter Hall, UC Davis, September 2016.

Peter Hall's Contribution to the Bootstrap, Joint Statistical Meeting, Chicago, August 2016.

Tales of Five Chinese Cities: PM2.5 Data Reliability and Compatibility in Air-Quality Assessment. A Cross-Straight Dialogue: Economic Forecast (III), Academia Sinica, Taiwan, April 2016.

Assessing Beijing's PM2.5 Pollution: Severity, Weather Impact, APEC and Winter Heating, Wharton School of Business, University of Pennsylvania, October 2015.

Assessing Beijing's PM2.5 Pollution: Severity, Weather Impact, APEC and Winter Heating, IMS-China Meeting, Kunming, July.2015.

Bandwidth Selection for High Dimensional Covariance Estimation, University of Toronto, October 8th 2014.

Bandwidth Selection for High Dimensional Covariance Estimation, University of Melbourne, July 2014.

Two-Sample Thresholding Tests for High Dimensional Means, IMS Annual Meeting, Sydney, Australia, July 2014.

Two-Sample Thresholding Tests for High Dimensional Means, The 9th ICSA International Conference, Hong Kong Baptist University, December 20-23 2013.

Modeling and Forecasting CPI of China's Mainland, A conference on Frontier of Statistics and Forecasting, Academia Sinica, Taiwan, December 17-18 2013.

Extracting Information of Interest Rates from Bond Price, A Conference organized by Shanghai College of Finance, June 2013.

Alternative Tests to Higher Criticism For High Dimensional Means under Sparsity and Column-Wise Dependence.

KeyNote Address, the 9th Congress of Applied Statistical Society of China, July 19th 2013.

On the implied volatility for options -- some reasons to smile and more to correct, Bendheim Center for Finance, Princeton University, September 2012.

High Dimensional Empirical likelihood for Generalized Estimating equations with Dependent Data, Department of Statistics, University of Illinois, September 20th 2012.

Two Sample Tests for High Dimensional Covariance, International Nonparametric Conference, Greece, June 2012.

On the implied volatility for options -- some reasons to smile and more to correct, Stevanovich Center for Financial Mathematics, University of Chicago, October 20th 2011

On the approximate maximum likelihood estimation for diffusion, Department of Statistics, Columbia University, Sept 26th 2011.

Test for Bandedness of High Dimensional Covariance Matrices, IMS-China Conference, Xian, July 2011; with Yumou Qiu.

On the approximate maximum likelihood estimation for diffusion, Keynote speaker, A conference on financial econometrics and modeling, Singapore Management University, June 2011.

On the approximate maximum likelihood estimation for diffusion, ICSA International Statistical Conference, Guangzhou, China, December 19-22 2010.

A two sample test for high dimensional data with application to geneset testing, Chinese Statistical Society Annual Meeting, National Central University, December 16-17 2010.

Adjusted Mann-Whitney tests for pre-treatment variables and missing values, National University of Taiwan, December 15 2010.

Tests for High Dimensional Regression Coefficients with Factorial Designs. Academy Sinica, Taipei, China, December 12-14 2010.

Parameter Estimation and Bias Correction for Diffusion Processes, A conference in honor of Prof H Tong's 65 Birthday, University of Hong Kong, December 2009.

Nonparametric Estimation for a Class of Levy Processes, INFORMS meeting, October 2009.

A two sample test for high dimensional data with application to geneset testing, IMS-Pacific Rim meeting, Seoul, Korea, July 2009.

Nonparametric Estimation for a Class of Levy Processes, IMS-China meeting, Weihai, China , July 2009.

Parameter Estimation and Model Testing for Markov Processes via Conditional Characteristic Functions, Joint Statistical Meeting, Washington DC, 2009.

Empirical likelihood ANOVA for longitudinal data with missing values,, Department of Statistics, University of Iowa, November 2008.

A two sample test for high dimensional data with application to geneset testing, October 2008, Department of Statistics, Penn State University.

Conditional Characteristic Function Based Parameter Estimation and Model Testing Using Empirical Likelihood. Modeling and managing Ultra High Frequency Data, An International Conference, Perth, Australia, Feb 13-15 2008.

Conditional Characteristic Function Based Parameter Estimation and Model Testing Using Empirical Likelihood. Likelihood Methods in Finance conference, the Bendheim Center for Finance at Princeton University, October 12-13, 2007.

Parameter Estimation and Bias Correction for Diffusion Processes, (With C. Y. Tang) Likelihood Methods in Finance conference, the Bendheim Center for Finance at Princeton University, October 12-13, 2007.

Empirical Likelihood Test for a Class of Regression Models, Joint Statistical Meeting, Salt Lake City, with I. Van Keilegom, 2007.

Improved Semiparametric Estimation with surrogate data, Department of Statistics, University of Minnesota, Sept 12th 2007.

Improved Estimation for Surrogate Outcome Data, the 35th Annual meeting of the Statistical Society of Canada, St John's, New Found land, June 10-13 2007.

Two Lectures on Statistical Inference for Stochastic Processes. The conference "Inverse Problems in Stochastic Differential Equations ", University of Southern California, May 22-26 2007.

Semiparametric Estimation With Missing Values via Empirical Likelihood, Department of Statistics, University of Wisconsin at Madison, October 11th 2006.

Estimating equation, missing values and empirical likelihood, (with Dong Wang), An invited talk at JSM in Seattle, 2006.

Nonparametric Estimation of Copula Function, The 2006 International Symposium on Financial Engineering and Risk Management, Xiamen, China, July 05-06 2006.

On bias correction in parameter estimation of diffusion processes, an invited talk and a member of the International Program Committee of the International Conference on Time Series Econometrics, Finance and Risk, at University of Western Australia, June 30-July 01 2006.

A short course on Empirical Likelihood, Institute of Statistique, Univerisite Catholique de Louvain, June-July 2005.

Nonparametric Estimation in Biased Sampling, 2005 Applied Statistics Symposium, Washington DC, June 2005.

Nonparametric Estimation of Expected Shortfalls, Mathematical Forschungsinstitut Oberwolfach, Oberwolfach, Germany, November 14-20 2004.

On Nonparametric Specification Test for Continuous Time diffusion Models, ICSA International Statistical Conference, NUS, Singapore, July 2004.

Information Recovery in a Study with Surrogate Endpoints. Applied Statistics Symposium, June, San Diego, 2004.

An Empirical Likelihood Goodness-of-fit test for Time Series, Quantitative Methods in Finance 2000, Syndey, Australia, December 8-12 2000.

Empirical Likelihood Confidence Intervals for Local Linear Smoothers, 2000 International Chinese Statistical Conference Applied Statistics Symposium, Embassy Suites, Hotel, Piscataway, NJ, USA, June 1-3 2000.

Empirical Likelihood for Local Linear Smoothers, Weierstrasse Institute for Applied Analysis and Stochastics, Berlin, November 11th 1999.

Mark Recapture and Biased Sampling, Royal Statistical Society, East Midlands Branch, October. 14th 1999.

Statistical Application in Fisheries, Australian Statistical Society, Victoria Branch, September 1995.
